PAPER ID/TITLE				

CLASS OF CODE	CODE	DEFINITION	VALUE (Yes/No)	EVIDENCY
Community of Focus	**Blind and/or Visual Impaired**	people who are blind, low vision, or generally described as having visual impairments. Does not apply to color vision deficiency nor visual impairments corrected by wearing glasses or contact lenses		
	d/Deaf or hard of hearing	people with hearing loss or who identify as deaf/Deaf or hard of hearing and use assistive technologies to interact with the computer		
	Motor/physical impairment	people with motor or physical impairments.		
	Autistic and neurodivergent people	people with autism spectrum disorder, attention deficit hyperactivity disorder, dyslexia and dyscalculia.		
	Intellectual and developmental disabilities	congenital disability that impacts how people develop (e.g., Down syndrome).		
	Cognitive impairment	this community consists of people with cognitive impairments which impact brain function and include things like TBIs but also aphasia and dyslexia; these can be diagnosed at any age and are not necessarily congenital.		
	General disability	a paper should be marked as "general disability" if it studied disability or accessibility in general, but no specific subpopulation--for example, looking at what nondisabled people think about disability in general or accessible education for people with disabilities in general (i.e., not a specific group like IDD)		
	Other	any communities of focus not already listed		
Role on the development team	**Programmer**	People who act as a software programmer, creating code artifacts on development teams.		
	Tester	People responsible for testing a software product during the development lifecycle.		
	Manager or Facilitator	People who're responsible to manage the efforts needed to deliver a software product. Usually reported as Project Manager, Scrum Master or Agilist.		
	Product Specialist	Product Owner, Product Manager, Requirements or Business Analyst.		
	Designer	User Experience Designer (UX), Product Designer, User Interface Designer (UI)		
	Not Specified	Not specified in the study.		
	(Other) - Open Code	Other roles not mentioned. (may generate new codes)		
Workarounds (Open Code) Strategies already used by PwD to overcome the Challenges pointed on the study	**Not Mentioned**	The paper do not mention any strategies
